

James Chapman family tree

Posted by Chapman tree - 2009/05/23 17:00

My husband is a descendant of James Chapman, who at age 30 (in the 1841 census), lived at Hadham Mill Farm, a farm of several hundred acres, with his wife, Mary Ann. They had several children, William, Mary, John and Elizabeth. The farm remained in the family for at least several generations. We are travelling to England from Australia in June/July 2009 and would like to locate the farm, more history on the Chapman family and any relatives still in England. Regards, Jennifer and James Anderson.
