---

Wrought Iron fire grate includes ornate backing plate, log basket and brass duck egg fire dogs. It is very large and heavy hence no point in selling on ebay and the like as it cannot be posted or parcelled etc..

The overall size is approx 34" width x 26" height. The log basket is 19.5" x 13".

£300

I have attached a picture but you can call in to have a look at it if you are interested, call me on 01279 842540.
